California Senate Bill SB-577, was signed by the governor in September 2002, has profound implications for the practice of alternative forms of health care in California. SB-577 enables non-licensed alternative and complementary health care practitioners to provide and advertise their services legally. However, they must also comply with certain requirements specified within the bill.

What does Senate Bill SB-577 mean for you, the client?

SB-577 gives you access to alternative and complementary health care practitioners. You must be given information about the nature of treatment and the practitioner's qualifications. Feel free to ask a practitioner any question you might have about your treatment. Check to see if your practitioner has been certified by a professional membership society. In addition, tell your doctor about any alternative treatment you are pursuing. You can also request that your licensed and non-licensed health care providers communicate with each other and work collaboratively to meet your health care needs. **SB-577 helps to protect you.** SB-577 requires non-licensed alternative health care practitioners to follow certain guidelines and restrictions. Here are the things that non-licensed alternative practitioners are NOT allowed to do:

- Perform any form of surgery or any procedure that punctures your skin or harmfully invades your body.
- Use X-ray radiation.
- Prescribe prescription drugs or recommending that you discontinue drugs that were prescribed by a licensed physician.
- Set fractures.
- Treat wounds with electrotherapy.
- Put you at risk of great bodily harm, serious physical or mental illness, or death.
- Imply in any way that they are licensed physicians.

In addition, non-licensed alternative practitioner MUST DO the following things:

- Provide you with a statement, written in plain language that includes the following information:
 - (1) That they are not a licensed physician and that their services are not licensed by the state;
 - (2) A brief and clear description of the kind of services they provide and the reasoning behind it;
 - (3) A description of their education, training, and experience.
